

Sandro Pastorini

Senior Java Developer

sandropastorini@gmail.com | +54 3442 480674 | in/sandropastorini/

Professional Summary

Results-driven Senior Java Developer with 4+ years of experience building scalable microservices and cloud-native applications. Proven track record in modernizing legacy systems, optimizing performance, and delivering production-ready solutions using Java, Spring Boot, and AWS technologies. Strong expertise in event-driven architectures and CI/CD automation.

Technical Skills

Languages & Frameworks: Java (8, 11, 17, 21), Spring Boot, Spring Security, Spring Data JPA, Hibernate, RxJava

Cloud & Infrastructure: AWS (EKS, EC2, Lambda, Batch, DynamoDB, SES, CloudWatch), Jenkins, Harness CI/CD

Databases: DynamoDB, MongoDB, MariaDB, Oracle Database, PL/SQL

Messaging & APIs: Apache Kafka, RabbitMQ, IBM-MQ, REST, SOAP, OpenAPI

Tools & Testing: Git, Azure DevOps, TestContainers, Postman, SoapUI, IntelliJ IDEA

Professional Experience

Globant Argentina | *Senior Java Developer* | Jul 2024 - Present

- **Modernized legacy infrastructure** by migrating services from Java 11 to Java 21 and Spring Boot 2 to Spring Boot 3
- **Delivered production-ready Revenue Recognition service** integrated with client's accounting platform, promoting POC to full production
- **Architected event-driven microservices** using Apache Kafka for high-throughput event streaming
- **Optimized AWS infrastructure** leveraging EC2, CloudWatch for monitoring and performance optimization
- **Deployed applications on AWS EKS, Batch, Lambda, and DynamoDB** with comprehensive logging and monitoring
- **Enhanced testing reliability** through comprehensive unit and integration testing with TestContainers
- **Mentored development team** through code reviews and technical guidance

Technologies: AWS, Java 11/17/21, Spring Boot 3, Apache Kafka, MongoDB, DynamoDB

Accenture Argentina | Custom Software Engineering Analyst | Dec 2023 - Jul 2024

- **Developed enterprise E-Commerce platform** for leading construction and mining equipment manufacturer
- **Modernized dealer management system** by replacing legacy architecture with scalable microservices
- **Improved code quality** by significantly increasing unit test coverage and implementing best practices
- **Accelerated team productivity** by providing technical mentorship and resolving development blockers

Technologies: Java 17, Spring Boot, Spring Security, Oracle Database, Azure DevOps

Artekium Technology Studio | Java Developer | May 2021 - Dec 2023

- **Led monolith-to-microservices migration** improving system scalability and maintainability
- **Optimized database performance** by refactoring underperforming PL/SQL queries
- **Delivered full-stack solutions** including desktop UIs, backend services, and database migrations
- **Integrated messaging systems** using RabbitMQ and IBM-MQ for reliable inter-service communication
- **Collaborated cross-functionally** with stakeholders to refine technical requirements

Technologies: Java 6/8/11, Oracle Database, React, Spring Boot, RabbitMQ, IBM-MQ, REST/SOAP APIs

CEICS (Centro de Investigación en Ciencias Sociales) | Systems Consultant | 2022

- **Deployed enterprise ERP solution** (Dolibarr) enabling automated email campaigns to 50,000+ recipients using AWS SES and EC2
- **Architected cost-effective communication platform** reducing operational expenses while scaling outreach capabilities

Technologies: Dolibarr ERP, AWS SES, AWS EC2

Education

Bachelor of Science in Information Systems Engineering

UTN (Universidad Tecnológica Nacional), Concepción del Uruguay, Argentina | *Expected 2025*

Languages

Spanish: Native | **English:** Advanced
